

User:

see i have got a business idea before i tell you my idea i will ask u few questions

Assistant:

Absolutely! Go ahead and ask your questions - I'm here to help you think it through.

User:

in india, does catering services get catering boys if yes how?

Assistant:

Yes, in India, catering services do get catering boys (service staff or waiters). They either hire in-house staff, use staffing agencies, freelancers, or trainees from hotel management colleges.

User:

does catering done by catering services or restaurant only

Assistant:

Catering is provided by dedicated catering companies, restaurants, cloud kitchens, home chefs, event managers, and community kitchens.

User:

so my idea is

Assistant:

Awesome - I'm listening! Go ahead and share your business idea.

User:

i want to create a platform where i can merge the manpower required by restaurants or catering services and the students who want part time jobs

Assistant:

That is a practical idea. It connects two problems: businesses needing temporary staff, and students needing flexible part time work.

User:

not only catering but any job that requires students as manpower give me some jobs for students like that

Assistant:

Here are categories: event help, retail assistants, tutors, digital gigs, household help, surveys, skilled labor assistants.

User:

are there any previous ideas like this

Assistant:

Platforms exist like Internshala for internships, Apna for blue collar jobs, TaskRabbit globally. None focus on student event-based physical gigs in India.

User:

yes

Assistant:

Let's outline MVP: name, student and employer features, tech stack, launch plan.

User:

before getting into it i also want to know what could be possible best pros and worst cons

Assistant:

Pros: huge market, low asset costs, hyperlocal, repeat use, social impact. Cons: trust issues, no-shows, churn, legal compliance, quality control.

User:

Terms and Conditions / Disclaimer templates, Risk Mitigation Plan

Assistant:

Provided T&C templates and a risk mitigation table.

User:

A clean PDF version of these docs?

Assistant:

Created PDF of T&C and risk plan and shared link.

Assistant:

[[Link to JobLink_Terms_and_Risk_Plan.pdf](#)]

User:

can u make this whole conversation into a pdf
